RucoGreen

Credit Reference Chart for USGBC LEED Credits

Southern Wall Products, Inc. is committed to producing the highest quality and most environmentally friendly building products on the market. The Ruco Green program is a continual research effort to create eco-friendly products. The following reference chart contains Volatile Organic Compound (VOC) and sustainability information on Ruco® and RuCoat® products. This chart may help builders gather information on which products qualify for United States Green Building Council (USGBC) LEED credits. For more information please call 1-800-554-9255 or visit www.ruco.com.
